

HYGIENIC BARRIER WASHERS

The **World Health Organisation** estimates healthcare associated infections associated with infections at hundreds of millions per year. With this in mind, Electrolux invented the Barrier Washer solution to reduce healthcare associated infections. Today, it is the number 1 sold Barrier Washer in terms of unit sales!!

BEST IN CLASS RELIABILITY, HYGIENE CONTROL AND PROCESS MANAGEMENT!

With Electrolux Professional Barrier Washers You Will Benefit From:

Guaranteed hygiene – Electrolux Hygiene Watchdog (HW) ensures that any wash program performs to its end before it allows unloading on the clean side.

Unprecedented ergonomics – Automatic inner drum door opening, lightest and largest doors on the market making it the safest and easiest machine to operate.

Improved productivity – The barrier washer offers an extra cycle per day compared to equivalent machines on the market.

Low operation costs – The optimized design of the machine drum reduces the dead volume and saves water at each step you run.

Coupled with the Electrolux Efficient Dosing System, your barrier washer will also automatically adjust the detergent quantity to the actual load inside, saving you detergent and money.

Intelligent software the Certus Management® Information System (CMIS) allows for the highest level of control and traceability throughout the whole hygiene process

Features and benefits

- Pass-through construction to offer the best ergonomics in barrier installations
- External doors with vertical hinges and 175° opening, easy to handle and reversible
- Automatic drum positioning and locking for the loading and unloading operation, offering the best ergonomics and safety for the operators
- Large inner drum doors to make loading and unloading operation easiest than ever
- Compass Pro® controller with a user friendly interface to make the operator's life easy allowing 40 factory and 15 customised wash programs
- Compatible with up to 13 detergent signals as standard to stand the most complicated wash programs
- Suspended construction allowing a 350G extraction to save energy during the drying process
- Feature the Power Balance from Electrolux that ensures the best extraction whatever the loading conditions are
- New lifters for a better wash result
- Easy program customization via the LPM software from Electrolux

MODEL (AVAILABLE FROM 13-110kg)	WSB5130H	WSB5180H	WSB5250H	WSB5350H
